

MERLIN

How much are you interested in sailboat, which let you experience the greatest sailors emotions in comfort and safety feeling? The sailboat, which always will be obedient to you, let you develop your skills and brings you a lot of fun, no matter if you are beginner or experienced sea wolf.

When you find yourself aboard, you will be suprised that there is so much space and sailing is more comfortable than on many other and bigger sailboats. Surely you will consider, how the centerboard box was hidden under the cockpits floor, that let you even lay down. After a while you become convinced to well-designed construction of Merlin. With the first wind blow on your face you will feel how easy the boat speed up, to sail quicker and quicker! Do you think the quick boat can't be agile and safe? After the first turn you will notice that it is very manageable and stabile dinghy. The Merlin assures also dry sailing. Turned deck flange preserve you geting soaked and other boats left behind you make you smiling. You can take two close persons aboard to experience adventures together.

The real thrill of sailing

MERLIN

We think also about your safety.

Merlin is unsinkable thanks to displacement foam filled chamber under the deck. If you enjoy to revel on water, don't worry, you can find the foam in mast and boom to avoid reversing the boat with mast deep down, in case of capsizing. If you don't want to pour out the water from cockpit there is no need to do it. It can be possible thanks to water outlet. Cockpit has been designed to stay over the waterline and thanks to this, water can go out and deck will dry. Don't you like overturns too much, now? Don't do it, please.

Even after the most emotioning sailing, there will come the time to go back ashore. Try to imagine, how you speed up and come by your dinghy onto the sandy beach thanks to self-folding centerboard, which totally hides in hull bottom and thanks to lifted rudder. It is possible for Merlin, moreover it is absolutely usual!

After that, you easily prepare the boat for transport or lock to the platform using special lug, and you will start to think where to go next time. There are many possibilities, because spacious forepeak and afterpeak fit all equipment needed for serious, few days adventure.

You can order Merlin with 7, 8.5 or even 10 square meters sail area. You decide which version will be most suitable for you and what optional equipment will be useful. Forepeak, afterpeak, trailer, beach trolley, jib furling gear, engine grip, covers, paddles, additional cleats... and maybe you dream about Merlin in your favourite colour -- no problem! We do everything to satisfy you.
